Le Football - Russ Crawford - 2016-08-01
There are two kinds of football in France.

American football was first played in France in 1909 during the cruise of the Great White Fleet. Then, during World War I, the American military shipped footballs, helmets, and shoulder pads alongside rifles and ammunition to the western front. A 1938 tour of two teams lead by Jim Crowley of Fordham University maintained the game until World War II, when the arrival of millions of young Americans in France motivated the U.S. military to sponsor several bowl games. During the 1950s and 1960s, when the United States occupied bases in France during the Cold War, American soldiers, sailors, and airmen played more than a thousand football games. When France withdrew from NATO, however, American bases were forced to close, leaving American football without a natural home on Gallic shores. In the 1970s American college and semi-pro teams tried once more to generate interest in the game among French nationals through a series of tours, but until a French physical education instructor vacationed in Colorado and brought equipment back to France, there was little local enthusiasm for the sport. On

the back of that vacation, and from one team in Paris, organized American football in France grew to more than 215 teams with more than 22,000 active players today. Le Football tackles the struggles and successes of American football in France and discusses how, unlike baseball and basketball, football has never been an overt instrument of American cultural influence. Russ Crawford keeps the chains moving as he shows how the modern, homegrown sport developed largely independent of American encouragement into a small but successful culture.

Why Wars Widen - Stacy Bergstrom Haldi - 2004-11-23

This work explains how wars are most likely to escalate when the effects of warfare are limited. The author demonstrates that total wars during the modern era were very violent and were far less likely to spread, yet the cost of warfare is falling making future conflicts more likely to spread.

Before the Sun Has Set - John Lawrence Darretta - 2006

This detailed analysis of the theme of retribution is a key to understanding the fiction of Flannery O'Connor. An idea central to the Bible, Dante, and Chaucer - one is paid back for the evil one does or for failure to do good - retribution expresses O'Connor's interest as a writer and defines the contour of her achievement as an artist. Within the twenty-year span of her writing career, O'Connor's notion of retribution expanded from her original concept in her first story, «The Geranium, » of retribution as

personal and familial, to her final version in her last story, «Judgement Day, » which shows an interest that is eschatological.
